# idoprint!

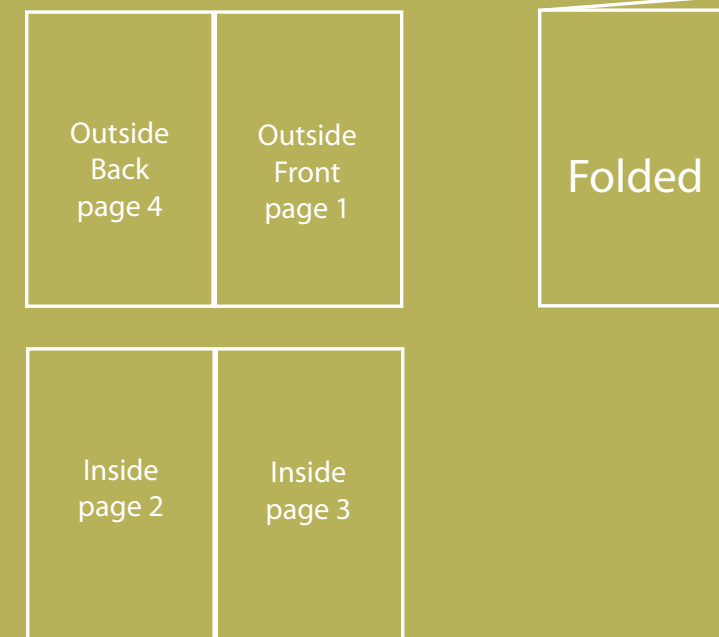

## 8.5 x 11 Catalog

Trim Size	11" x 17"
Bleed Size	11.25" x 17.25"
Live Area	10.75" x 16.75"
Folded Size	8.5" x 11"

If your design has elements that print to the edge of the page, please extend your artwork to the bleed size of 11.25x 17.25". The excess artwork will be trimmed off. However, it insures that no white space will be visible at the edge of the trimmed printed piece.

The "live area" represents a safety zone for elements that must not be cut off. Variances in cutting mean that artwork in the blue shaded area may be trimmed off. To be sure important artwork is not cut off, please keep within the live area, safety zone.

This is a double sided piece. This template shows the outside of the brochure. The inside has the same trim, bleed and live area guidelines. Please see example.

EXAMPLE NOT TO SCALE
